

FAQ's

How does the Kind Smiles discount Plan differ from Dental Insurance?

The Plan is NOT a dental insurance plan. Under the Plan, you pay an annual membership fee which costs less than your first visit, and you pay directly based on a discounted fee schedule when you receive services. Unlike dental insurance programs, there are no waiting periods, no annual maximums, and no approval processes. The fees you pay are based on a discounted fee schedule and are due at the time of service.

When can I start using the Kind Smiles discount Plan?

Immediately. Your membership is effective immediately upon completing the Enrollment Form. Ask a front desk professional about membership and begin saving today!

What am I expected to pay the dentist for dental services?

At the time of service, you are expected to pay dentist fees based on the discounted Plan fee schedule. Of course, two Cleanings, two Exams, two Fluoride Treatments and one X-Ray are included FREE.

Can I cancel my membership after I sign up?

Yes, the membership can be cancelled at any time but the annual membership fee is non-refundable. Once cancelled, the membership cannot be re-activated unless you pay the annual membership fee again.

Who can I include in the plan?

You can include up to four family members who live at the same address.
